TROMPE L'OEIL

Trompe l'oeil is French for "trick the eye". It is an artistic technique that creates a three dimensional optical illusion of a two dimensional image.

This trompe l'oeil courtyard mural helped create a feeling of openness in a small, indoor space.

Are those real windows above the archway?

MURALS & CREATIVE ACCENTS

Do you have bare walls and ceilings, average railings, plain tiles and moldings? Whether you prefer a themed room or classy touches, Jayne hand paints custom creations.

FAUX FINISHES

Faux finishes gives flat walls, columns and railings richness and sophistication, or it can cover up problem areas without costing you a fortune.

HAND PAINTED FURNITURE

Buying custom-made furniture, cupboards and cabinets cost you a fortune and doesn't always match what you already have. Why not add your own unique touch?

ORIGINAL WORKS

Jayne's latest venture in combining her inspirations with her artistic talents and sense of humor is a line of original paintings. These original works are for sale.
